ABOUT US

Rise International a food commodity trading company with over 40 years of cumulative knowledge and experience in the global food commodity market. We work with more than 40 approved suppliers to deliver high-quality products to our customers. We have completed more than 3000 containers of shipment since we established our business, and we continue to grow and expand our network.

What keeps us apart?

At Rise, we are not just traders, we are innovators. We are constantly exploring new ways to deliver the best quality products to our partners, while respecting the environment and the communities we work with.

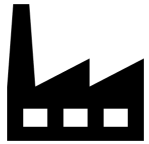

OUR PROMISE

We trade a wide range of commodities, from plant based nutrition to grains across the globe. We and our partners use cutting-edge technology and market intelligence to source, transport, and store our products efficiently and securely.

We do this because we believe in creating value for our partners and contributing to continuous and viable development of the food industry.

QUALITY

All of our suppliers hold certifications and necessary infrastructure to maintain the standards such as BRC, IFS Food, FSSC 22000, ISO 22000, ISO 9001. They also have SGF membership in Europe and majority are holding organic certificates for USDA-NOP, EU Master Organic.

At Rise, Halal and Kosher certifications are must haves. Aside from detailed external laboratory analyses performed by the manufacturers; Rise checks products batch by batch basis randomly once every year and every batch that is supplied is also being checked before shipment for AIJN and/or FDA compliance, pesticides, heavy metals, patulin, authenticity as applicable.

Rise also has its own quality control process in place throughout the supply chain. Most of the products we supply are available in the organic form and certified organic.

Current laboratories that we work with are SGS, EUROFINS, GALAB, Dana Krueger, AGQ Labs.

VALUE ADDED SERVICES

Recipe Development

In the dynamic landscape of food industry, Rise International stands out as a premier consultancy specializing in innovative recipe development. Leveraging our extensive expertise, we prioritize quality as the cornerstone of our services.

Our team of seasoned professionals meticulously crafts recipes that not only meet but exceed industry standards, ensuring that the resulting juice products are of the highest quality.

Through rigorous testing and optimization, we guarantee that our developed recipes enhance the flavor profile, nutritional content, and overall appeal of the juices, setting them apart in a competitive market.

VALUE ADDED SERVICES

Food Safety & Manufacturing

Our Food Safety and Quality Consultation services are designed to ensure that your food products meet the highest standards of safety and quality.

Our team of experienced consultants will work closely with your company to develop and implement robust food safety management systems.

This includes conducting thorough audits of your facilities, helping you adhere to industry regulations and standards, and providing comprehensive training programs for your staff.

VALUE ADDED SERVICES

Toll Manufacturing

In the realm of Toll Manufacturing Consultation, we offer guidance to streamline and optimize your manufacturing processes.

Whether you are looking to outsource specific stages of production or seeking to enhance your overall manufacturing efficiency, our experts can guide you through the entire toll manufacturing process.

We help you identify the right partners, negotiate agreements, and implement effective quality control measures to maintain product consistency.

Our aim is to assist you in maximizing operational efficiency, minimizing costs, and ultimately achieving a competitive edge in the market.

VALUE ADDED SERVICES

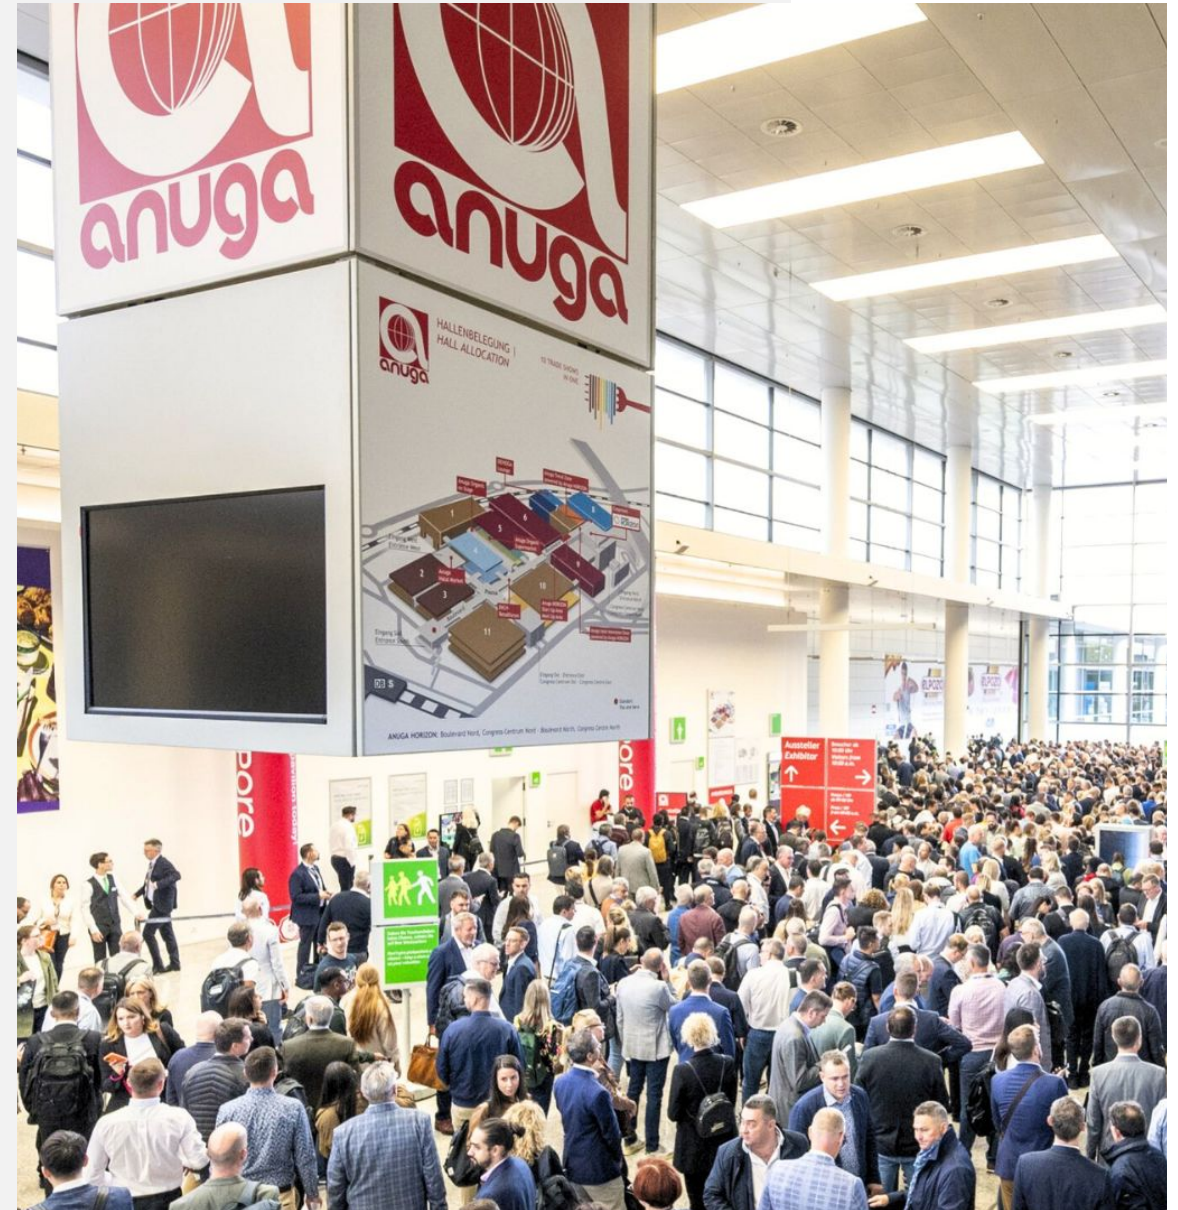

Business Development

Our Business Development Consultation services are tailored to assist your food commodity company in expanding its global footprint.

We provide strategic guidance on market entry, trade regulations, and cultural nuances to help you navigate the complexities of international business.

From identifying lucrative markets to establishing distribution channels and building partnerships, our team is dedicated to unlocking new opportunities for your brand on the global stage.

We conduct market research, attend global fairs, devise entry strategies, and provide ongoing support to ensure your company's sustainable growth in international markets.
